## WEB DEVELOPER

Agartala, Tripura | [udaid347@gmail.com](mailto:udaid347@gmail.com) | [Portfolio](#)

### SUMMARY

I'm a passionate web developer with expertise in modern web technologies. With a strong foundation in both frontend and backend development, I create seamless, responsive web applications that deliver exceptional user experiences. My journey in web development started from ICFAI University as a Computer Science Engineer. Since then, I've worked on various projects, constantly learning and adapting to new technologies and best practices in the industry.

### TECHNICAL SKILLS

**Languages:** Python, Java, Javascript, C, C++ , HTML, CSS

**Frameworks:** Tailwind, React JS , Node JS, Express JS, Next JS, Typescript

**Database:** Mongo DB, Postgres, MySQL, Prisma

**Tools:** Git / Github, VS code, Figma

### PROJECTS

**CIAN** ( *Techstack -Next.js 15, React 19, TailwindCSS, Gemini, Prisma*)

[Github Repo](#) | [Live Link](#)

- CIAN is a carrier guide that guides users to choose right carrier using Market Insights with accurate Data chart which is Updated weekly.
- Uses Clerk for Secure authentication, Shadcn ui for beautiful UI/UX design, Prisma for storing user data, interactive visuals using Recharts, Advanced form handling with React Hook Form and Input validation using Zod.
- Allows user to practice questions and track their progress for carrier development and make beautiful resume and cover letter using integrated Gemini as AI assistant.

**OatMeal** ( *Techstack - Next js 14, Typescript, Tailwind, Gemini, MongoDB* )

[Github Repo](#) | [Live Link](#)

- OatMeal is a modern web application that enables users to create, customize, and download professional resumes with real-time previews. It features AI-powered project description generation from GitHub repositories, customizable themes and font options.
- Uses Clerk for authentication and Gemini as generative AI which helps users to ATS scan their resume with LinkedIn post to check the ATS compatibility and gives feedback accordingly

**HackPub** ( *Techstack - React, Typescript, Tailwind, NodeJS, ExpressJS, Gemini, MongoDB* )

[Git Repo](#)

- HackPub is a online hackathon platform where users can participate in hackathons and hosts can create hackathons. Uses Gemini to analyze submissions to rank them eliminating manual intervention.
- Streamlines Hackathon creations with custom Forms along with clean UI and database integration to store user Data.

### EDUCATION

**ICFAI University, Tripura**

**Aug 2023- July 2027**

Computer Science and Engineering

**Umakanta Academy (English Medium)**

**Jan 2013 - April 2022**

High School

### ADDITIONAL INFORMATION

- **Languages:** English, Hindi, Bengali.
- **Certifications:** Data Structures and Algorithm in Java, Full Stack web development in MERN.
- **Awards/Activities:** Technovate 1st prize in Web development (2024), Technovate 2nd prize in Web development (2025).
